

Bible Doctrine 2 – Lesson 12

Doctrine of the Resurrected Body

1 Corinthians 15:34-58 (51-52)

Introduction: The Doctrine of the Believer's Resurrection is a doctrine that brings great joy to some and great trepidation to others. For some things we have more questions than answers. And then even our answers can lead to new questions. The biblical teaching concerning the resurrection of our bodies is one of those issues with more ellipses than periods, more question marks than exclamation points.

People abound with questions concerning the resurrection. These go from the question from how and when to what if. They range from the biblical to the ridiculous.
