

Bible Doctrine 1 – Lesson 10

Who Is the Holy Spirit

John 14:16-18; 26

Introduction: As we come to our study concerning the Holy Spirit we realize that time has not removed from the Church a misunderstanding of the Holy Spirit and His Ministry.

The twentieth century has been labeled by many as the century of the Holy Spirit. The rise and spread of Pentecostalism, with its major emphasis on the ministries of the Spirit, and the blossoming of dispensationalism's emphasis on works of the Spirit are distinctive to this age. The century's concern for the evangelization of the world also highlighted a need to know the power of the Spirit to accomplish this. Though this attention on the work of the Spirit has been a good thing, it has not always been scripturally guided; thus there exists an even greater need today for careful attention to the biblical teaching on this subject.

We need desperately to become familiar with the Holy Spirit again.
